**TORF - 51**

**VATN - 57**

**BRIM - 63**

**EARTH MATTERS - 71**

Welcome to my  
*fantasy world*

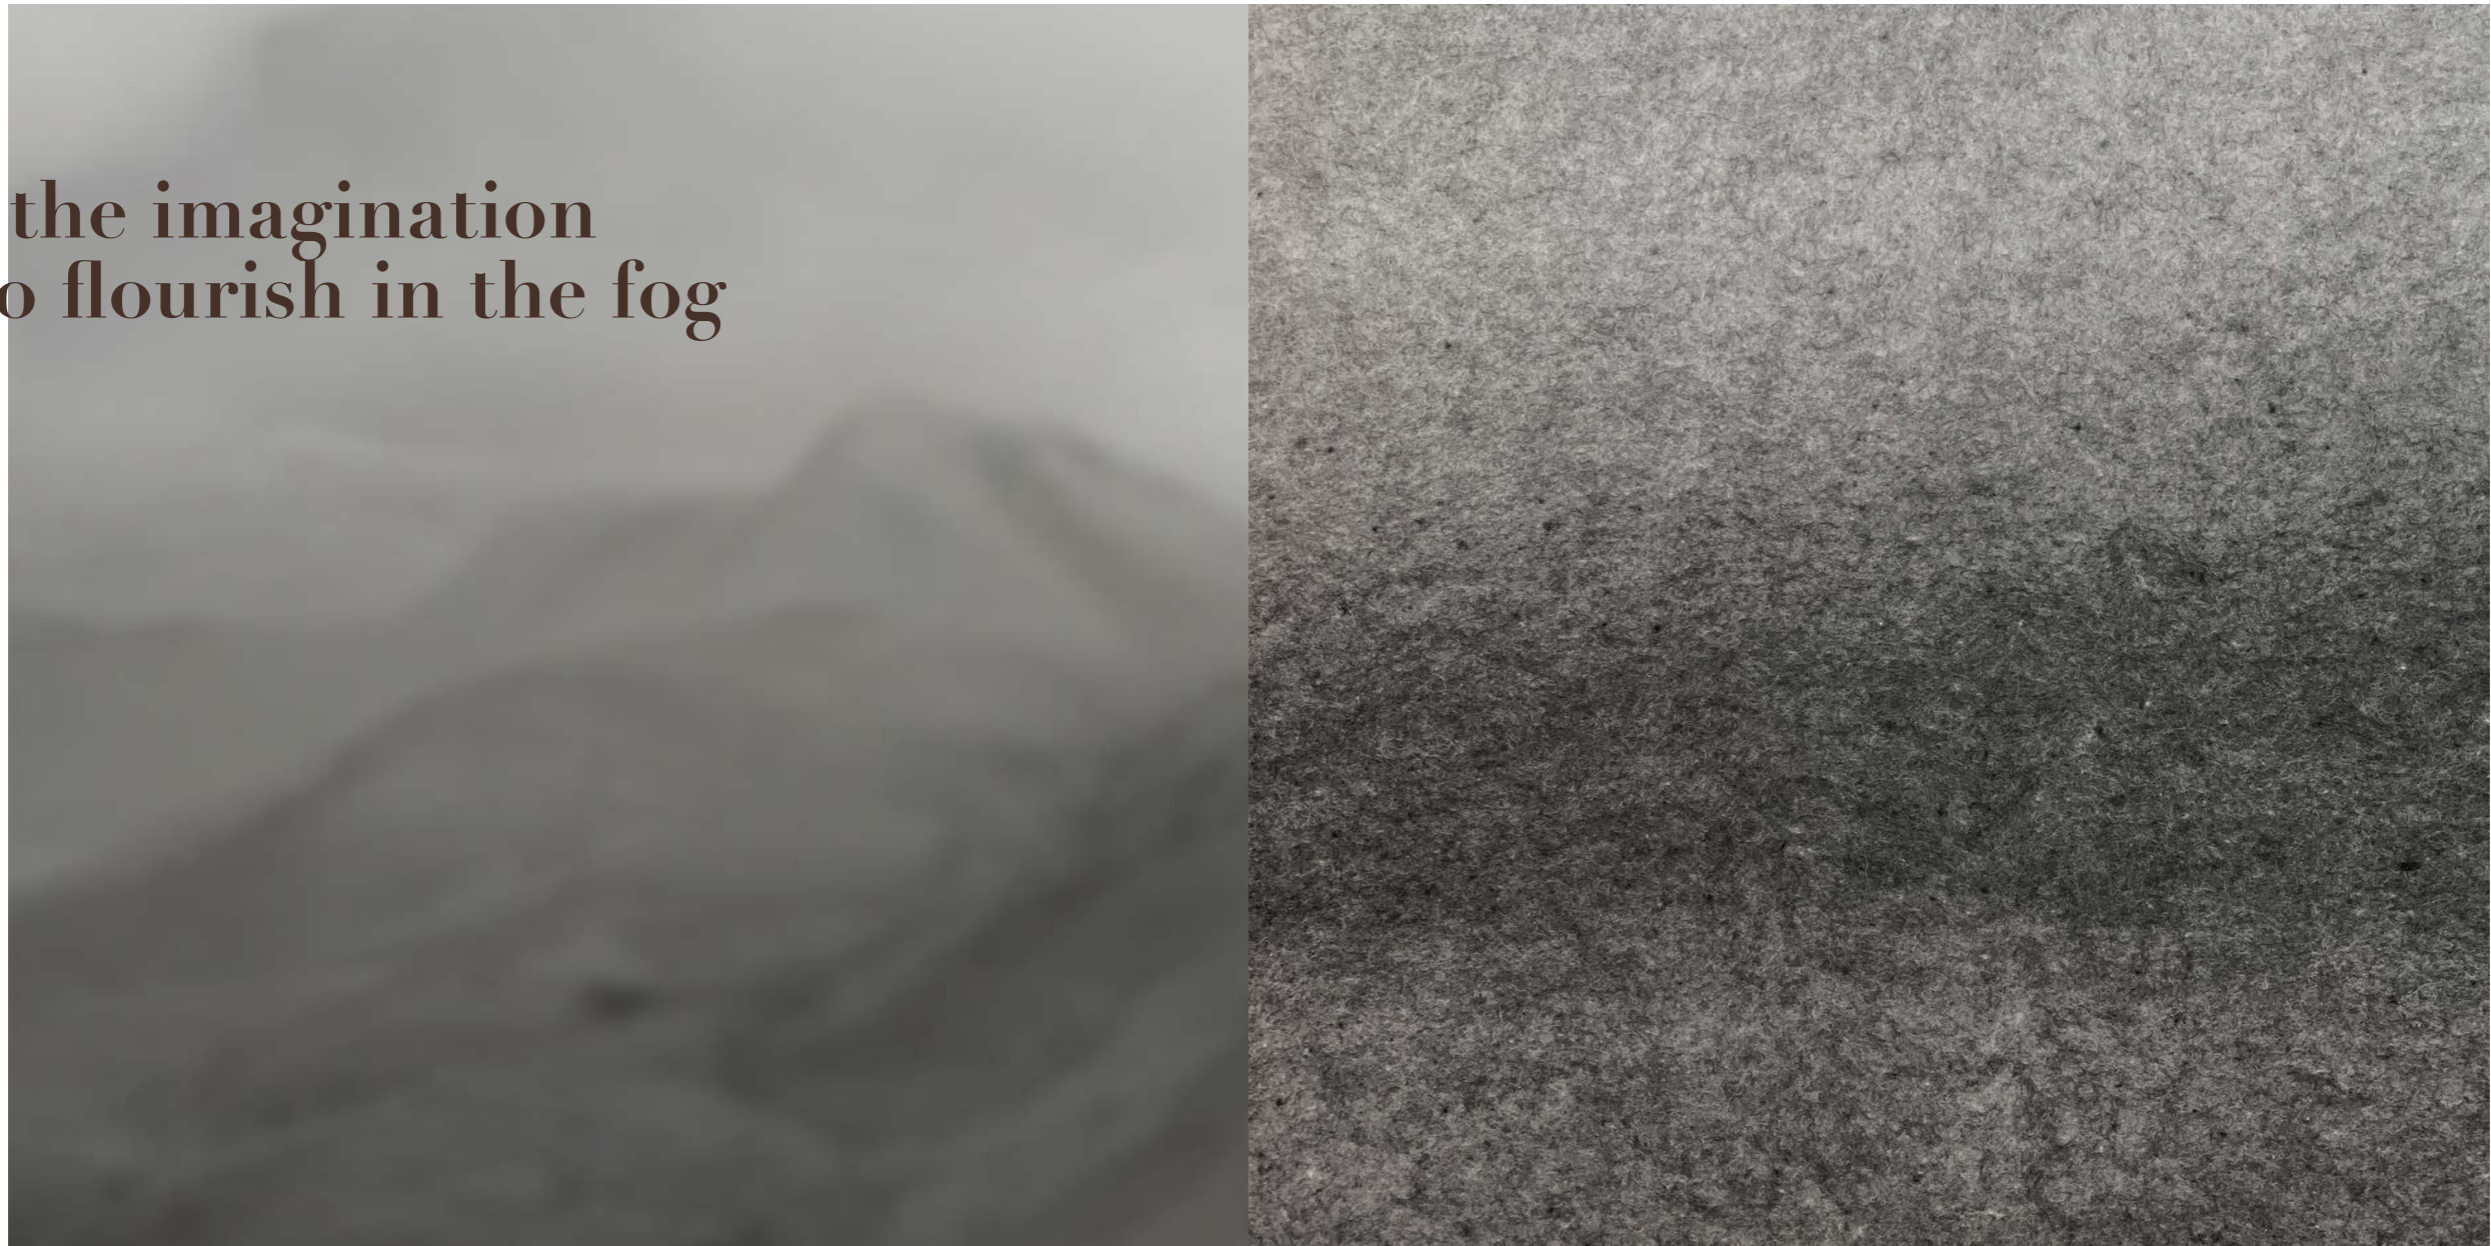

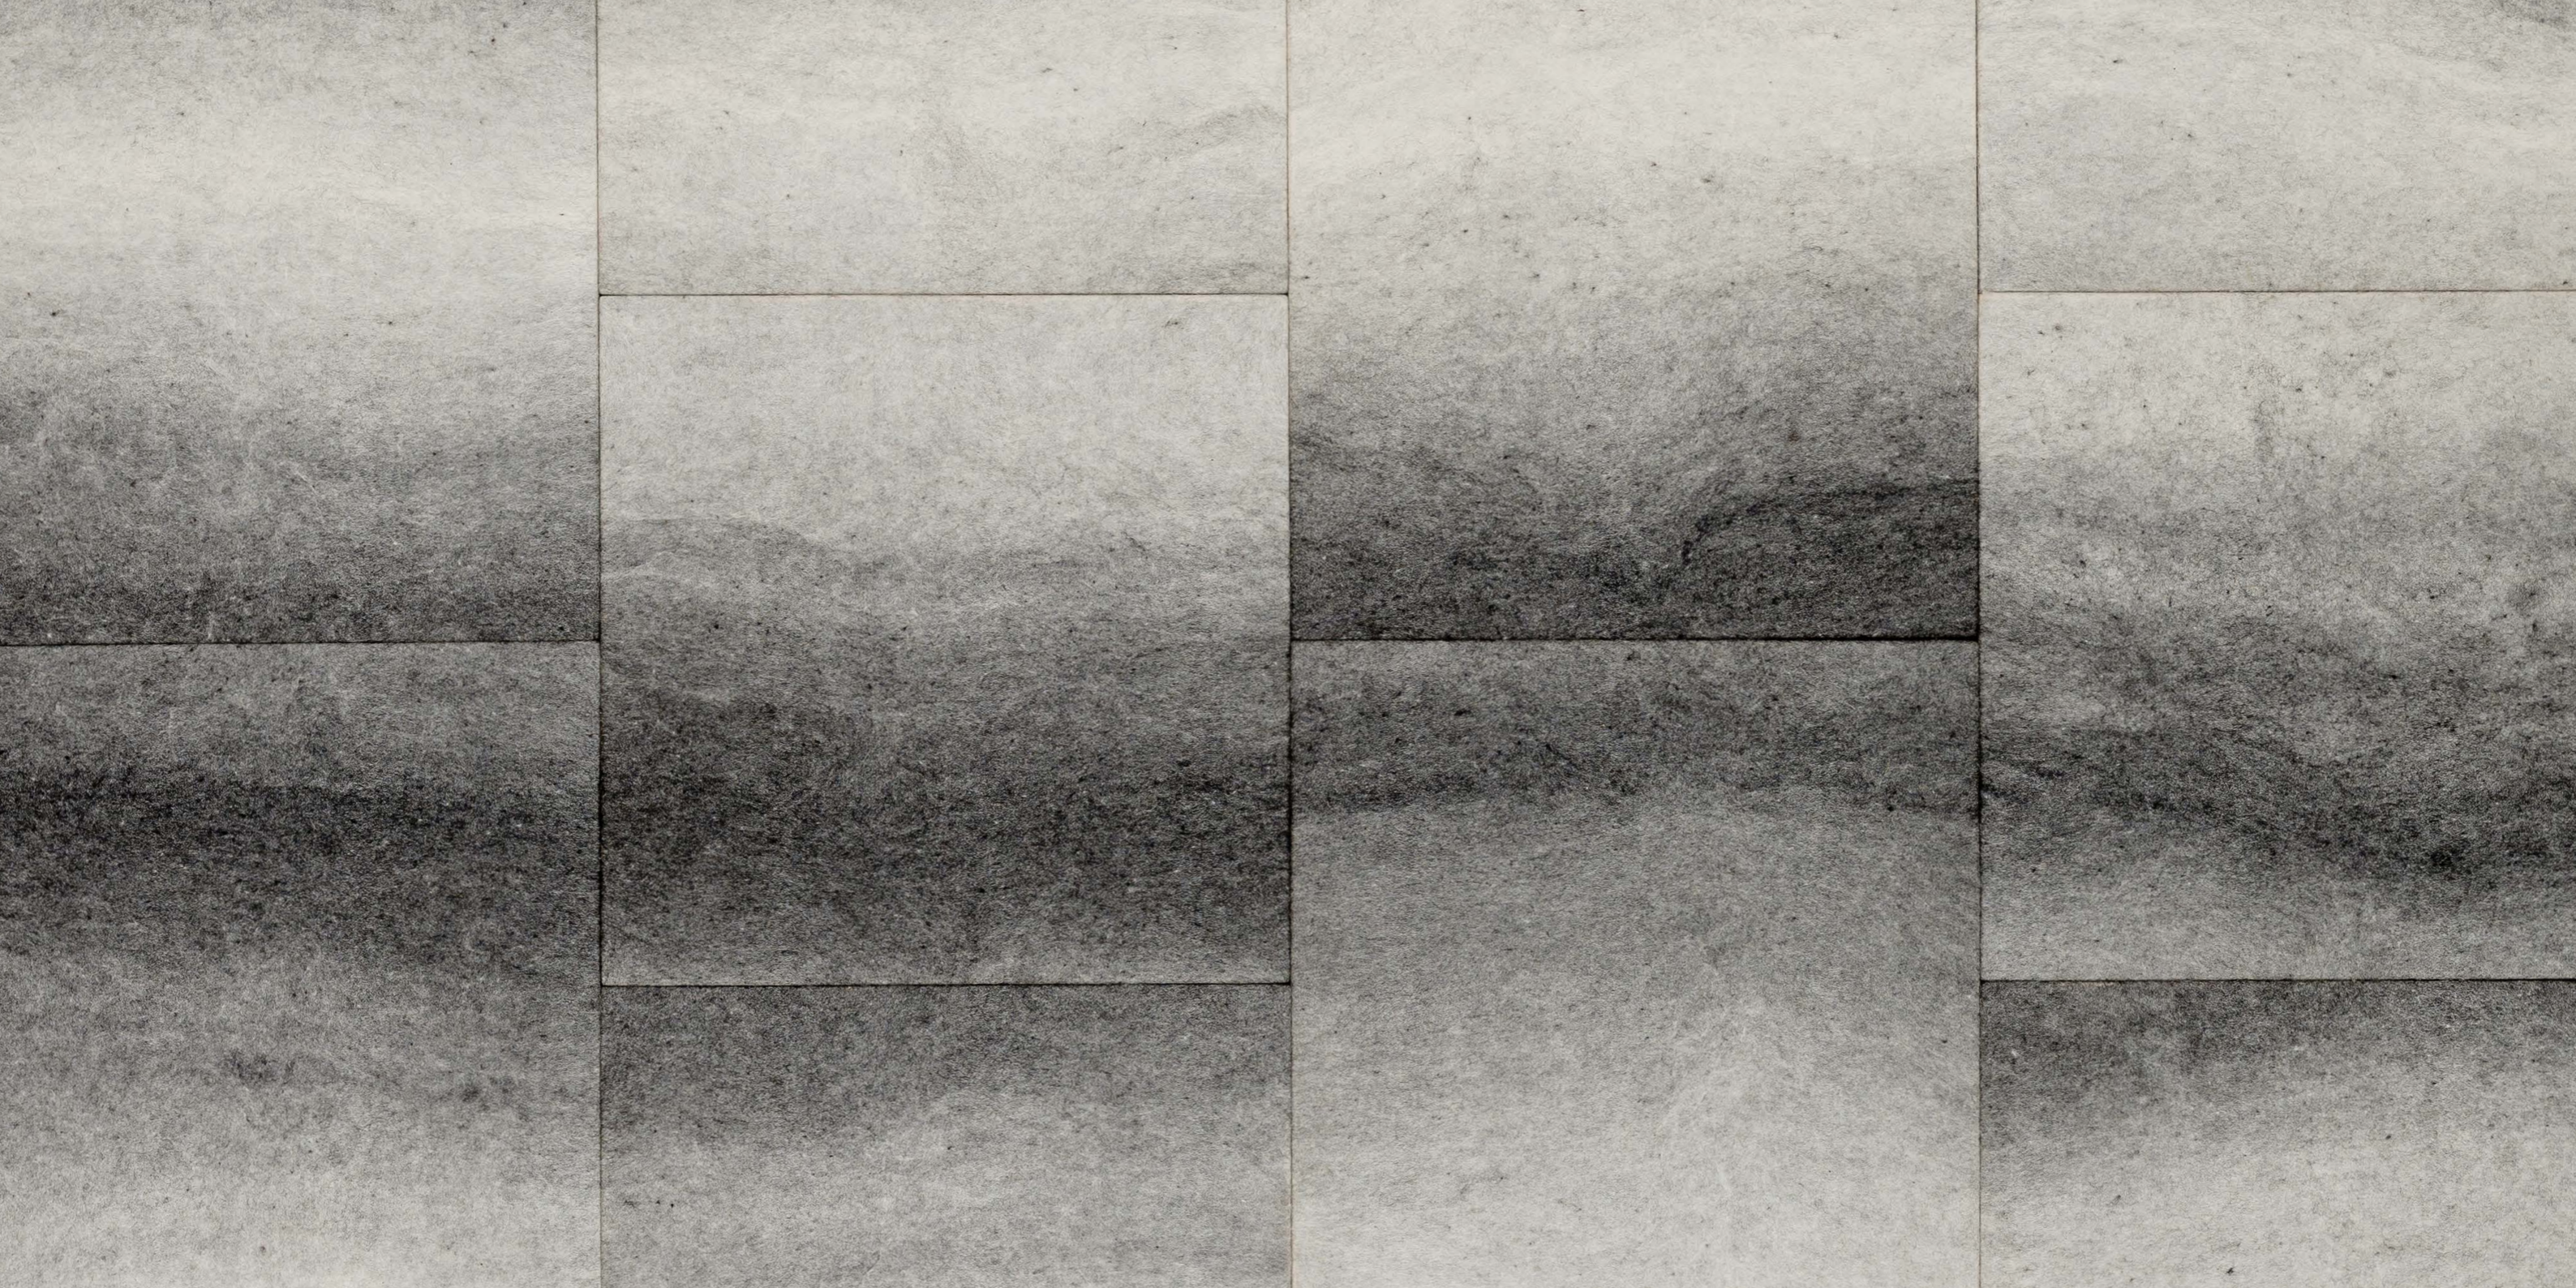

**Geometrical forms**  
*of wellbeing*

**Where the imagination  
starts to flourish in the fog**

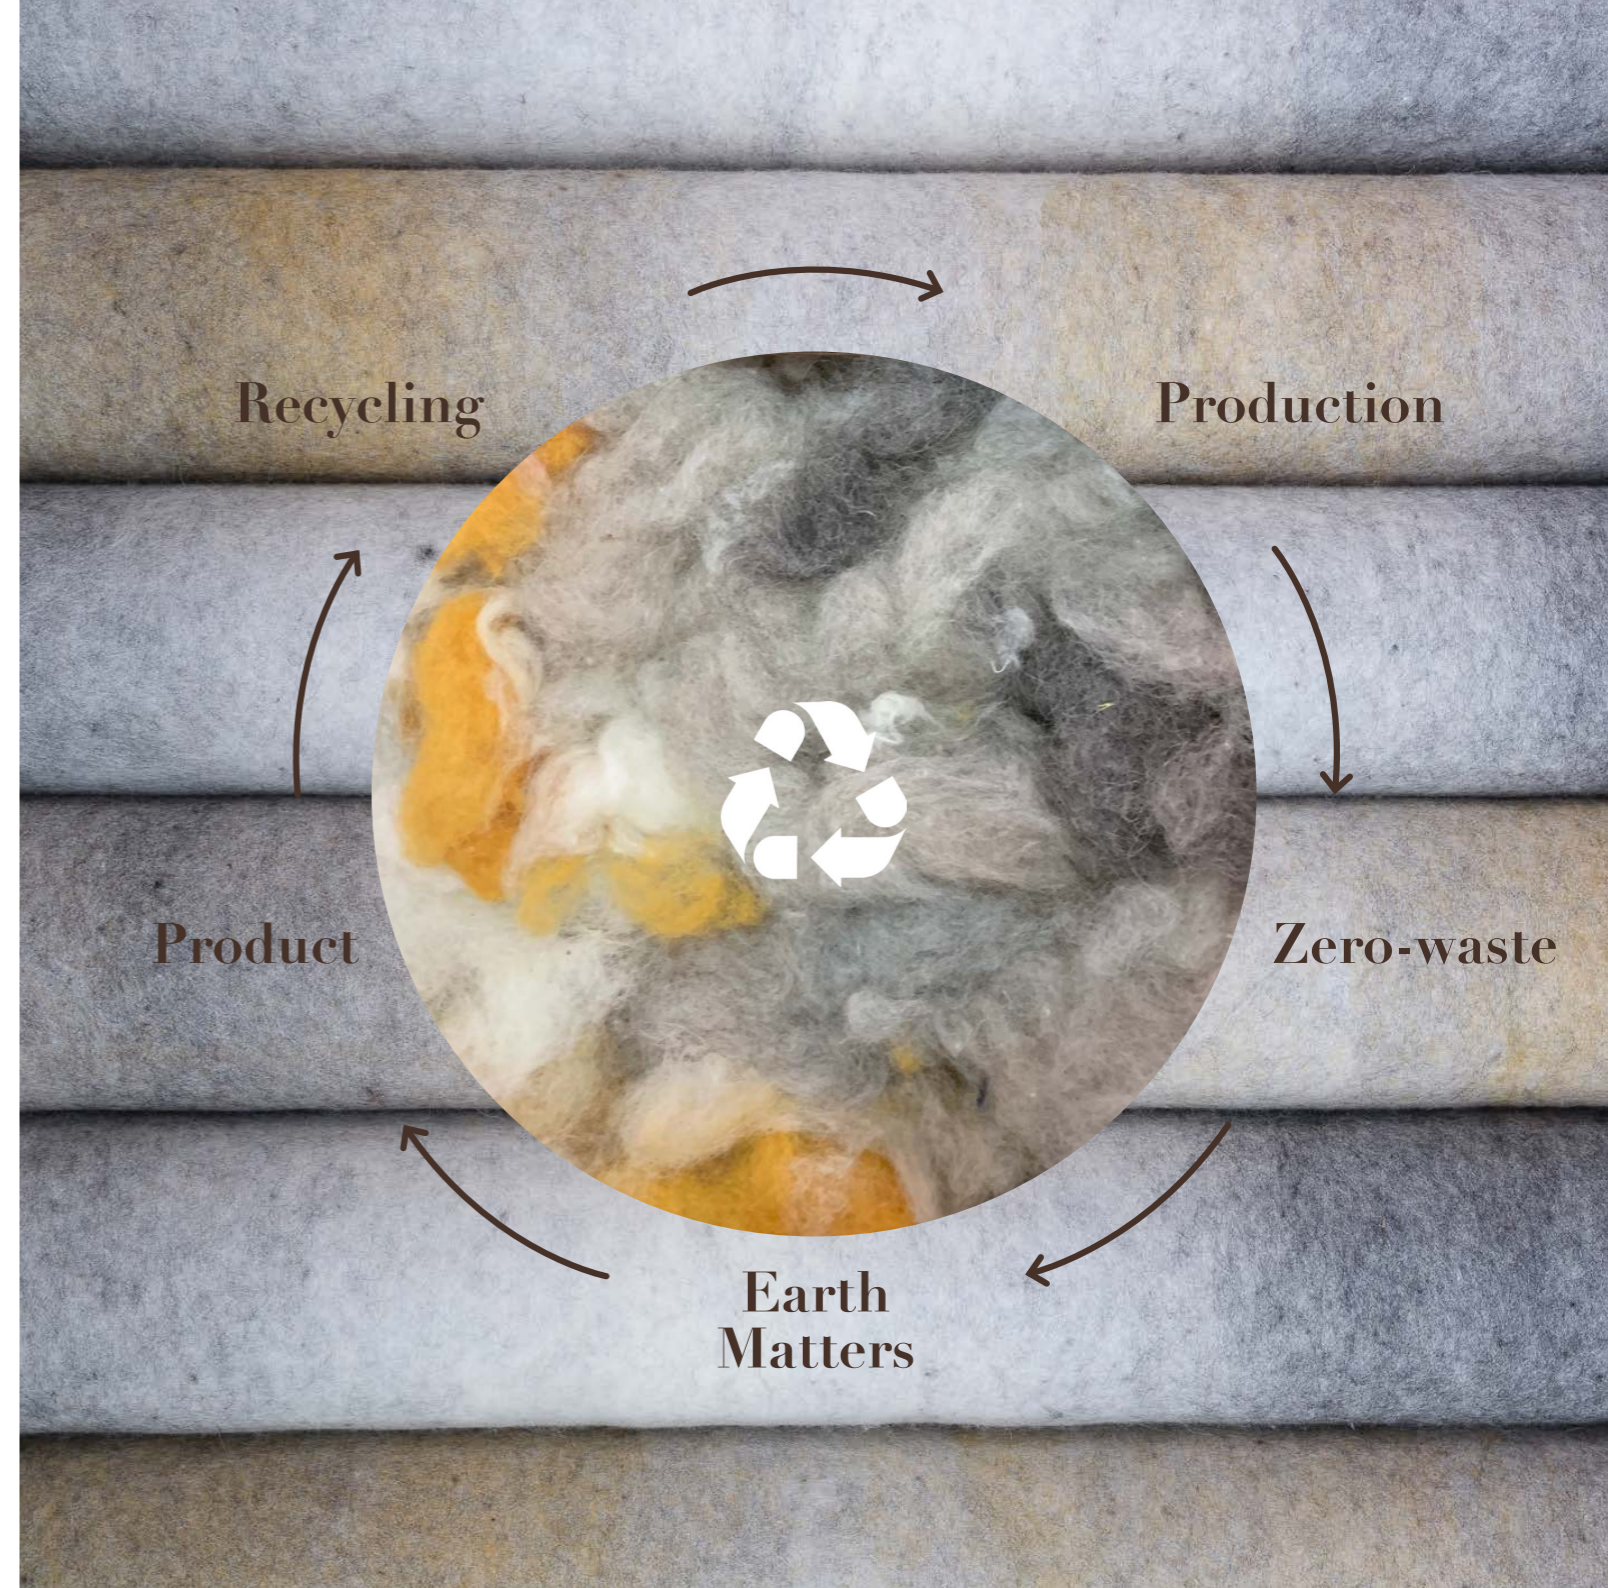

# Capturing the *stillness* of movement

***EarthMatters;*  
Recyclable,  
renewable resources,  
clean energy and  
100% biogradable\***

**\*Wool is the most reused and recycled fibre in the world. Kula by Bryndís soft felted wool is from natural and renewable resources, grown in the simple mix of sunshine, water, grass and fresh air. Made with clean renewable energy and little water, only mild environmentally friendly cleaning aids and warm geothermal water is used for cleaning in Iceland. 100% biodegradable, made from renewable atmospheric carbon. When disposed of, wool acts like a fertiliser by slowly releasing valuable nutrients and carbon back into the soil.**

We're inspired by the *textures*  
of *Icelandic landscape*

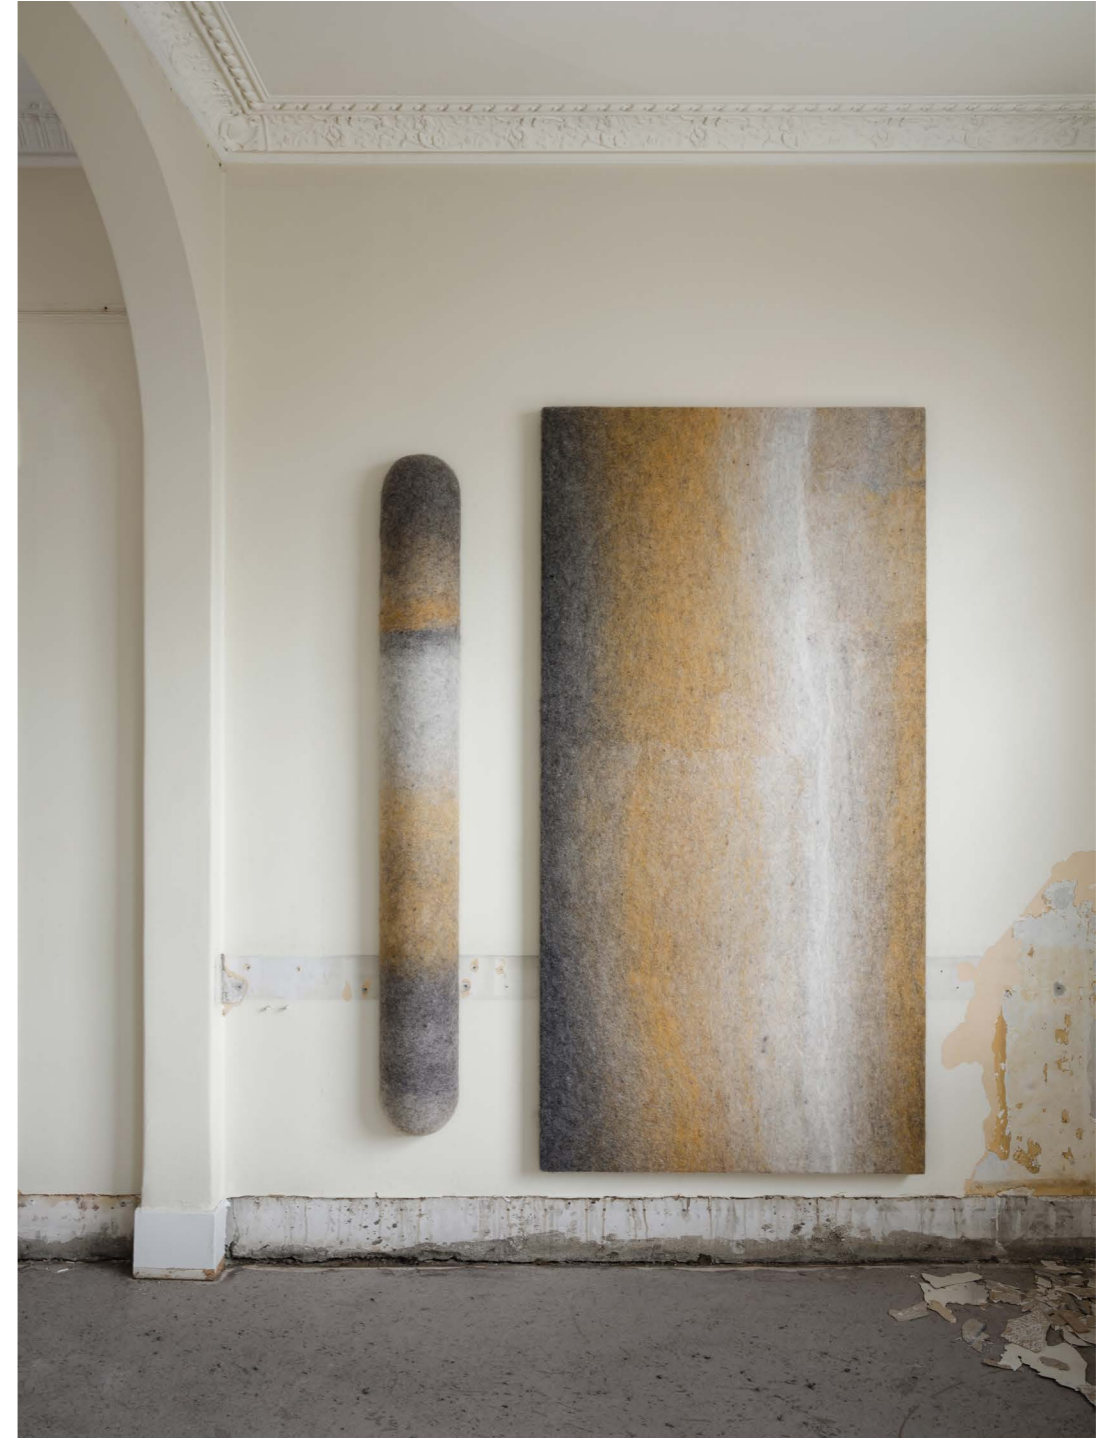

*New use for  
old techniques*

We spread  
*positive energy*

# Geometrical forms from *natural* materials

# Architecture & forms

We bring *tranquillity*  
into your interiors

# Sustainable architectural elements

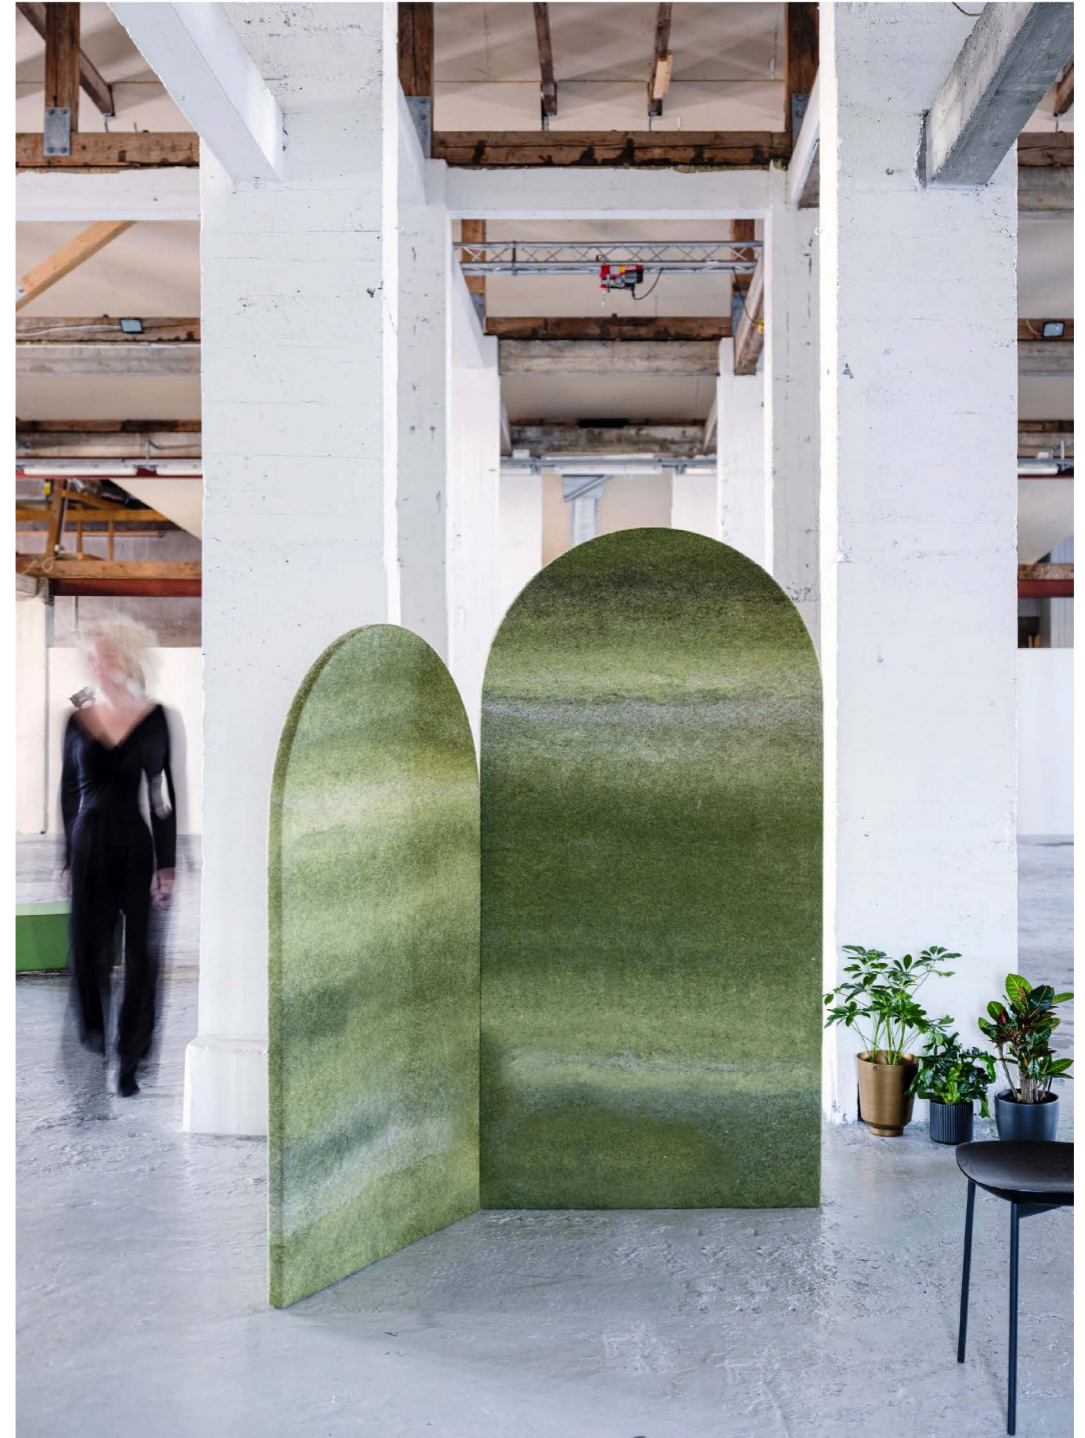

INSPIRATIONAL BOOK

TREE

We know how to use our  
*natural resources* carefully

Our machineries  
will lead us to a  
*greener future*

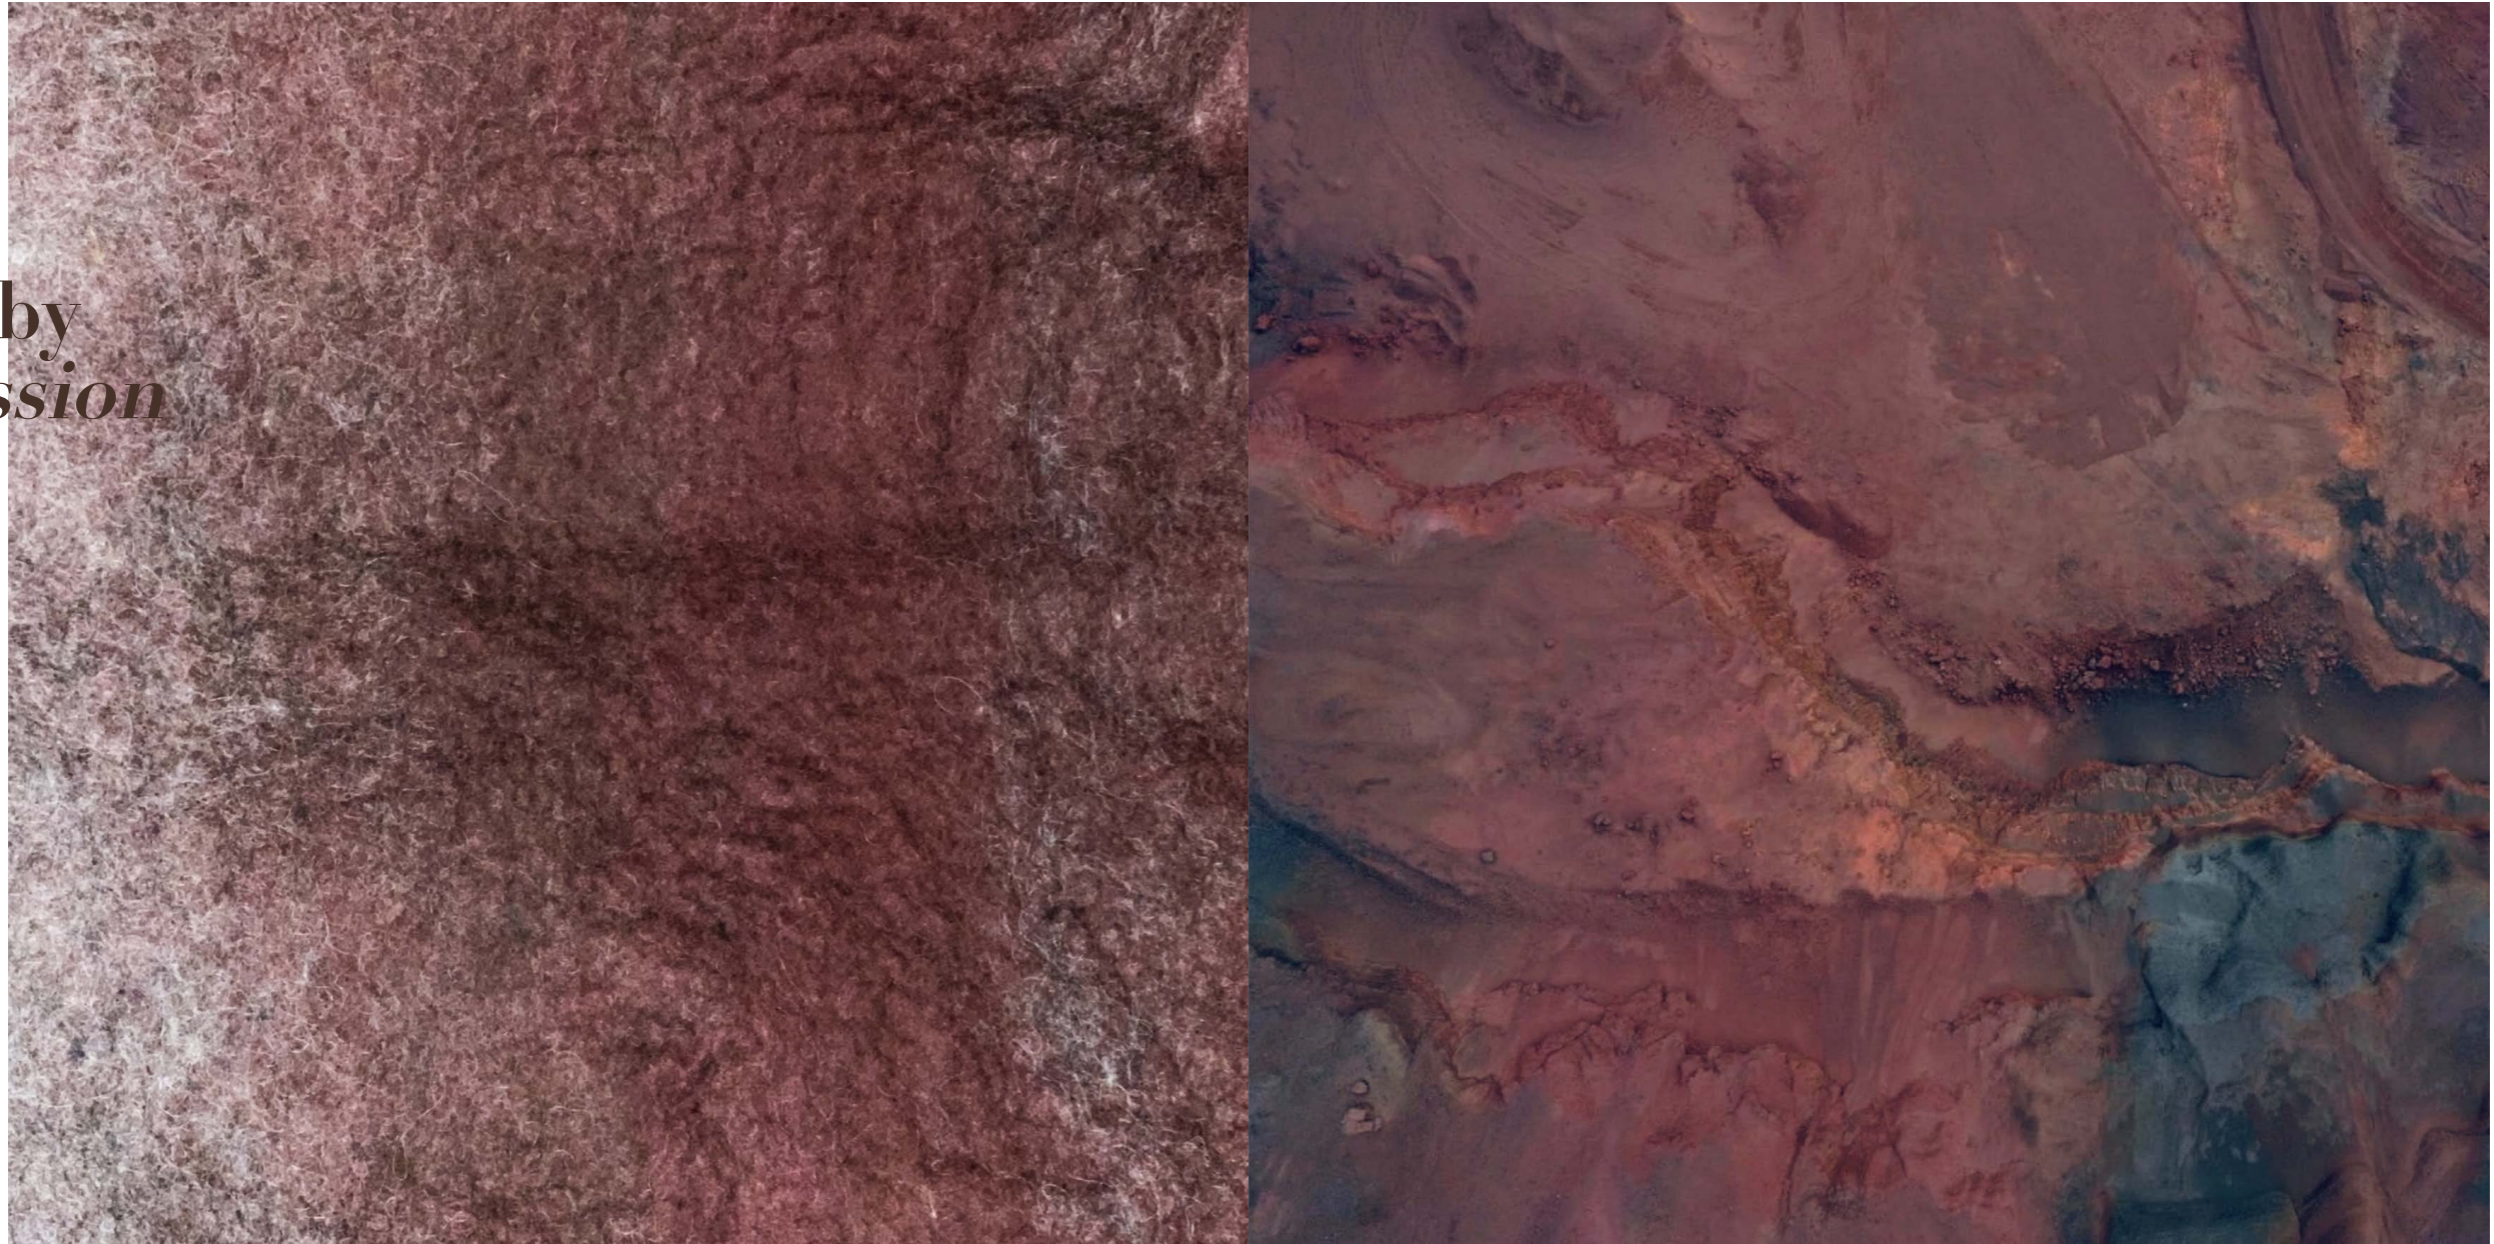

# *A quiet place*

We are  
driven by  
our *passion*

**We bring the Earth  
into your home**

We support our earth  
optimizing its *resources*

# Grand design

Everything we do  
is *handmade*

**We  
are  
fresh**

Natural forms transpose  
to *another dimension*

Ready to  
*dive* into it?

We combine the beauty  
of nature with top notch  
*acoustic properties*

# A-CLASS SOUND ABSORPTION

EN ISO 11654:1997

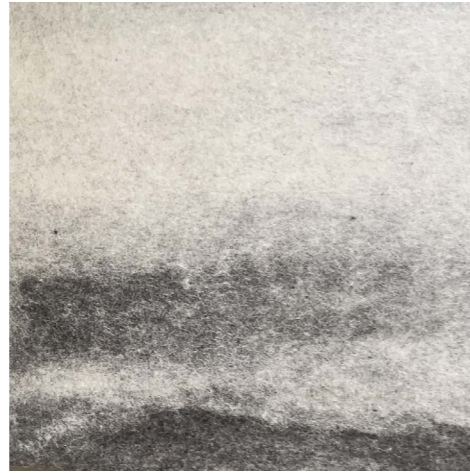

I'm  
*Bryndís*

# *EarthMatters* textile collection

Rauðhólar - Red hills

Jökull - Glacier

Poka - Fog

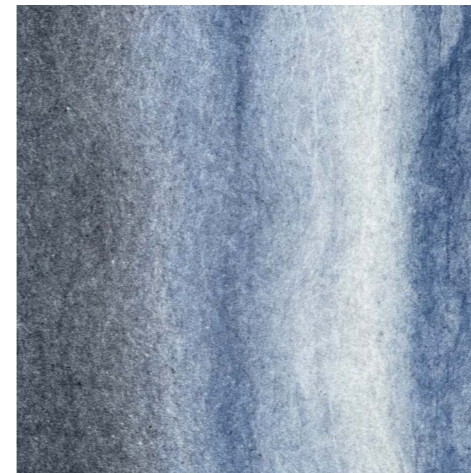

Hverir - Hot spring

Torf - Turf

Brim - Surf

Vatn - Water

Mosi - Moss
